REASONS FOR ALLOWANCE

1. Claims 1-14 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The present invention is directed to enhanced method and user interface for controlling radio communications equipment by utilizing a wheel mouse. The closest prior art, Regelous (US-PGPUB 2003/0222925) discloses the first step 15 the pointer is over the first field and over the "7" digit within the value, the second step 16 the "7" digit within the first field has been selected. This may have occurred by clicking the mouse button (see fig. 3, paragraph [0062]). The improved method comprises at least one step of accepting input from the user, said user manipulating said wheel mouse input device to place said mouse pointer over one said digit field and manipulating said wheel without clicking said mouse to select a desired digit displayed in said digit field over which said mouse pointer is placed. This patentable distinction is included in all independent claims 1 and 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
